Ethiopia DHS 2016 | EDA for: ed.level

ANC Visits < 4 ~ Education Level secondary + primary · no education 0.00 0.25 0.75 1.00 0.50 Predicted Probabilities and 95% Confidence Intervals Strata 🔷 rural 🔶 urban

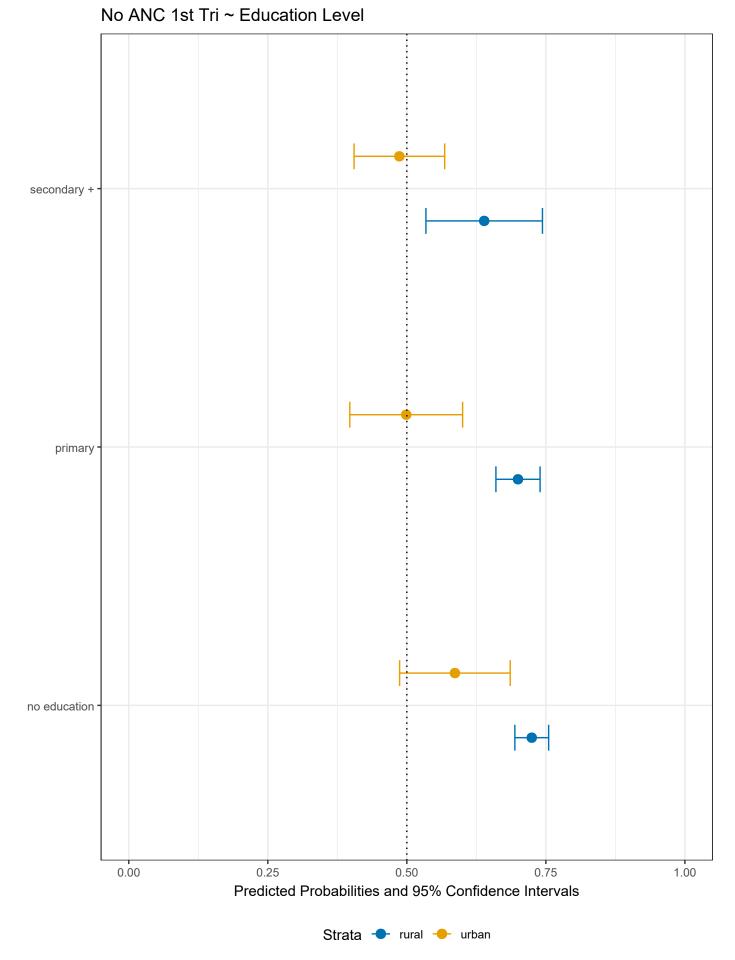

Survey weighted distribution of health outcome: ANC Visits < 4

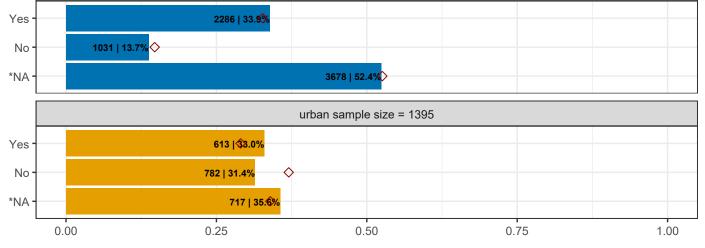

Binary Outcome variable: anc.less4.last and categorical Vulnerability variable: ed.level. Odds ratio displayed.

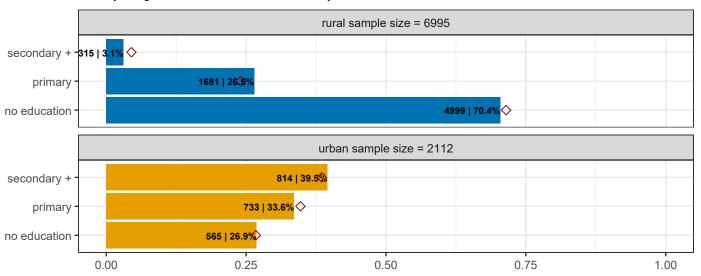

var	rural	urban
secondary +	0.22*** [0.15, 0.32]	0.4*** [0.24, 0.67]
primary	0.56*** [0.46, 0.68]	0.61 [0.37, 1.02]
no education	Ref	Ref

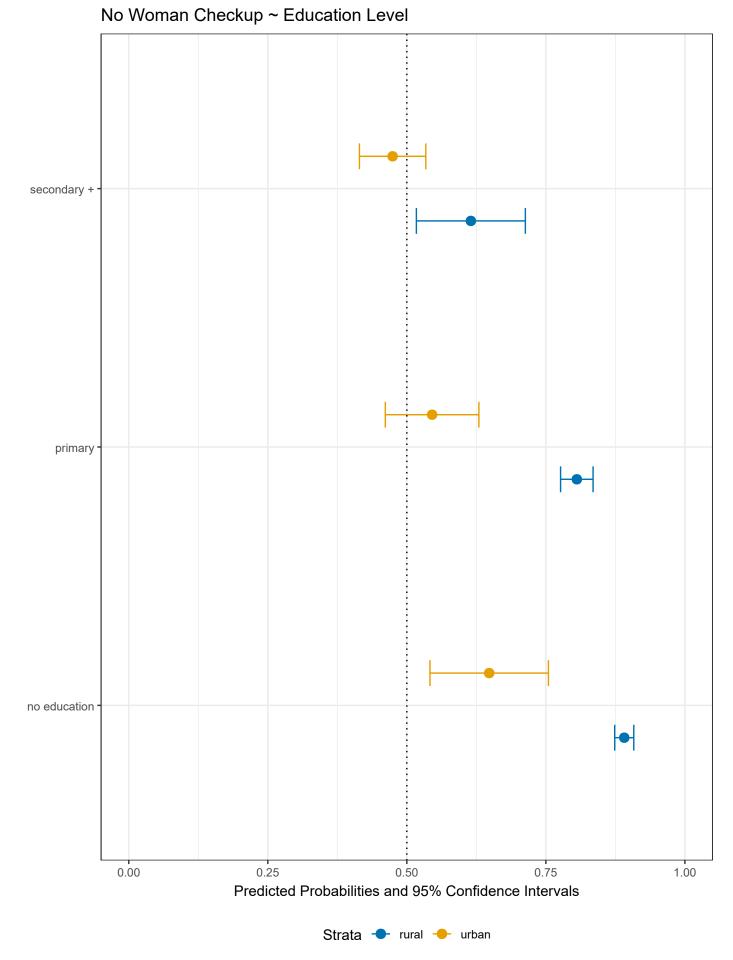

rural sample size = 3317

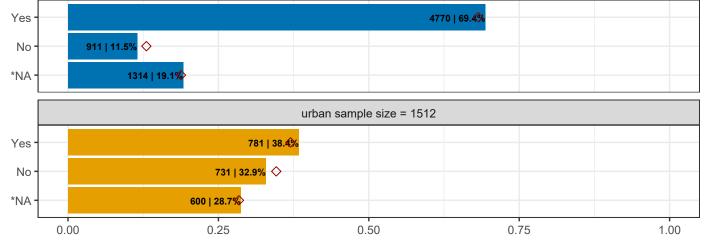

Binary Outcome variable: no.anc.1st.tri and categorical Vulnerability variable: ed.level. Odds ratio displayed.

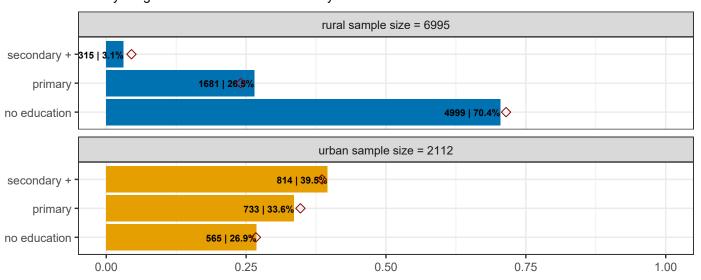

var	rural	urban
secondary +	0.67 [0.41, 1.1]	0.67 [0.42, 1.07]
primary	0.89 [0.71, 1.11]	0.7 [0.39, 1.26]
no education	Ref	Ref

Survey weighted distribution of health outcome: No Woman Checkup

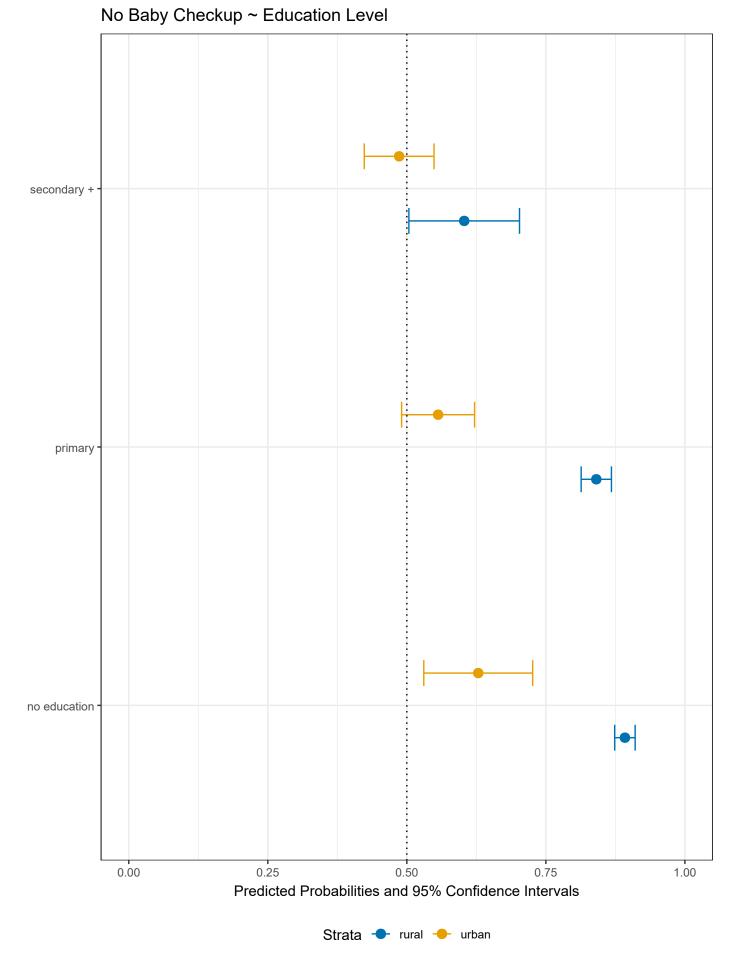

Survey weighted distribution of vulnerability variable: Education Level

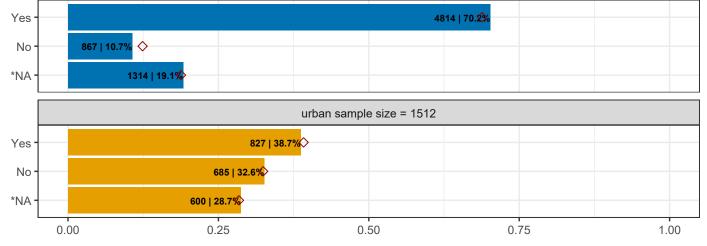

Binary Outcome variable: wom.nohlthck and categorical Vulnerability variable: ed.level. Odds ratio displayed.

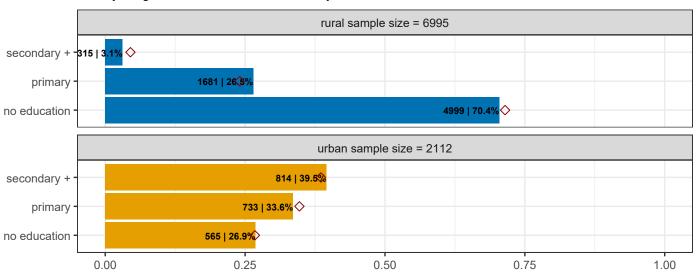

var	rural	urban
secondary +	0.2*** [0.12, 0.31]	0.49** [0.31, 0.78]
primary	0.51*** [0.4, 0.64]	0.65 [0.39, 1.1]
no education	Ref	Ref

Survey weighted distribution of health outcome: No Baby Checkup

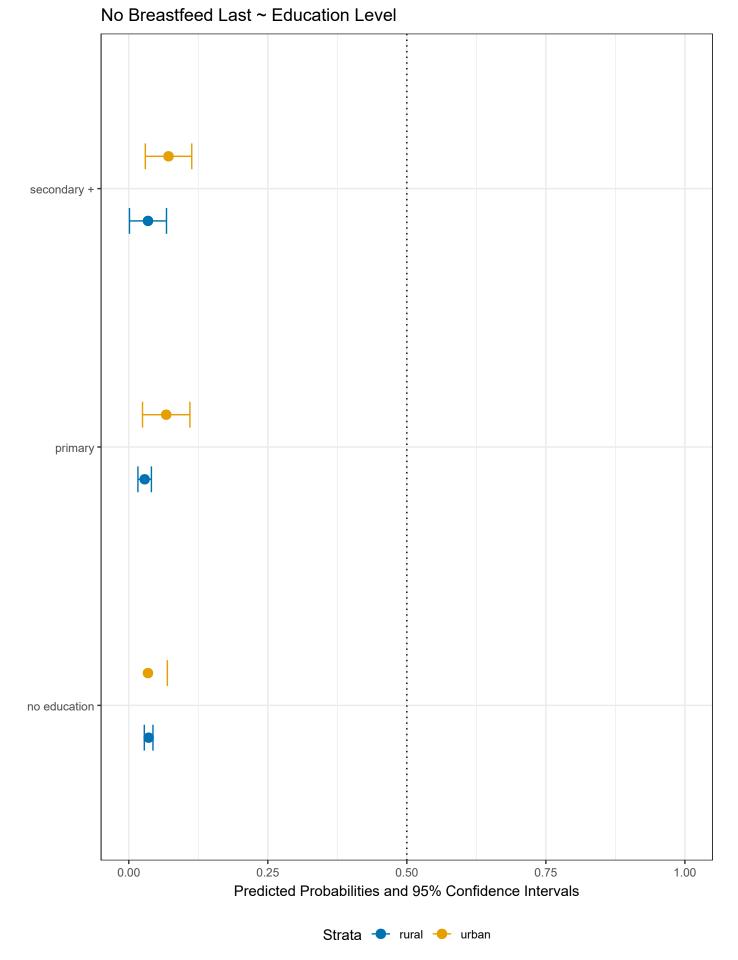

Survey weighted distribution of vulnerability variable: Education Level

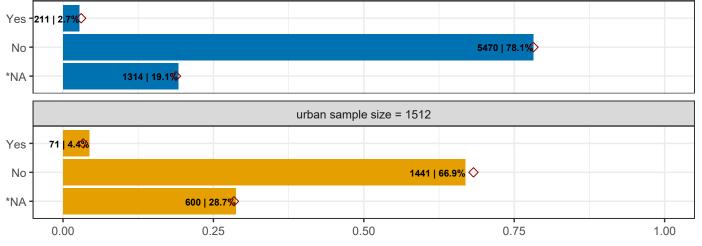

Binary Outcome variable: baby.nohlthck and categorical Vulnerability variable: ed.level. Odds ratio displayed.

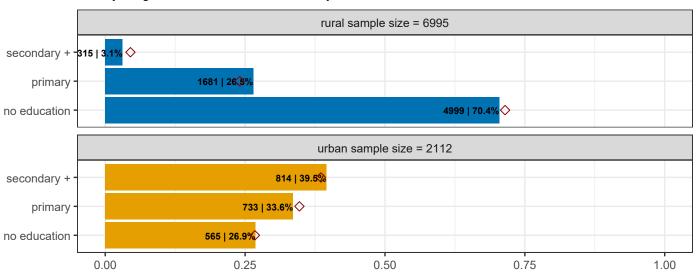

var	rural	urban
secondary +	0.18*** [0.12, 0.29]	0.56* [0.36, 0.88]
primary	0.64*** [0.5, 0.82]	0.74 [0.48, 1.14]
no education	Ref	Ref

Survey weighted distribution of health outcome: No Breastfeed Last

Survey weighted distribution of vulnerability variable: Education Level

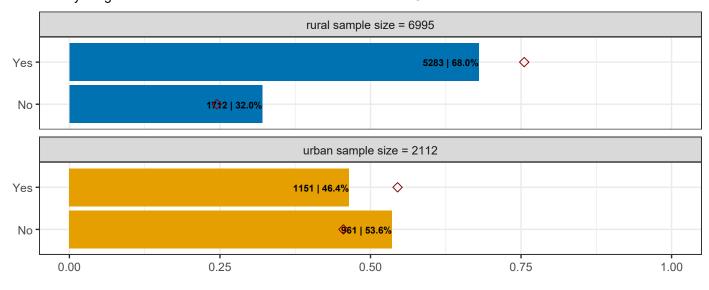

Binary Outcome variable: no.breastfeed.last and categorical Vulnerability variable: ed.level. Odds ratio displayed.

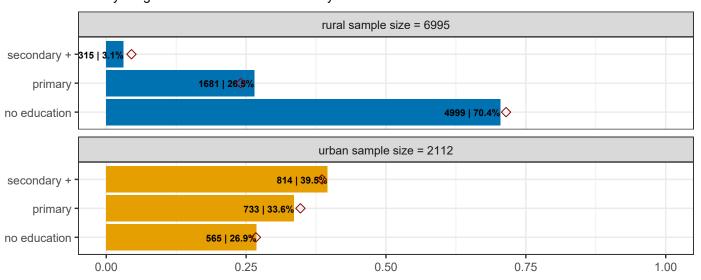

var	rural	urban
secondary +	0.97 [0.36, 2.62]	2.16 [0.64, 7.32]
primary	0.79 [0.47, 1.33]	2.02 [0.59, 6.88]
no education	Ref	Ref

# No Modern FP Use Now ~ Education Level secondary + primary · no education 0.00 0.25 0.75 1.00 0.50 Predicted Probabilities and 95% Confidence Intervals Strata 🔷 rural 🔶 urban

Survey weighted distribution of health outcome: No Modern FP Use Now

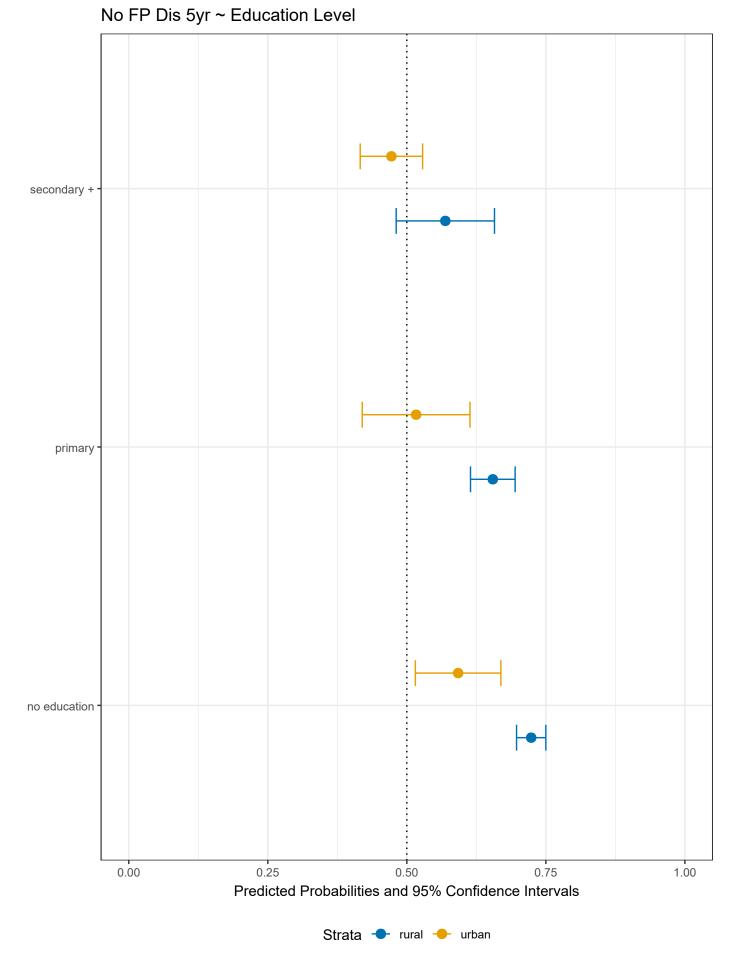

Survey weighted distribution of vulnerability variable: Education Level

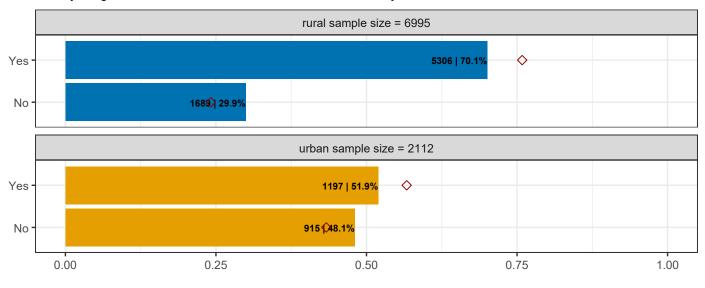

Binary Outcome variable: nofp.mod.now and categorical Vulnerability variable: ed.level. Odds ratio displayed.

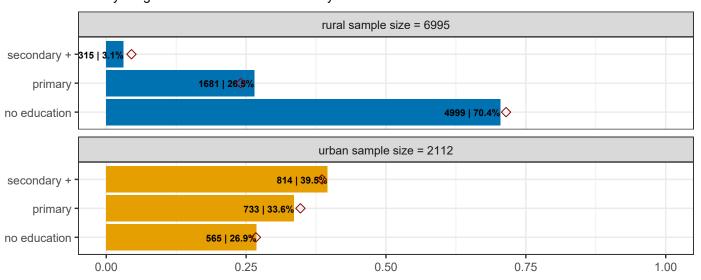

var	rural	urban
secondary +	0.43*** [0.28, 0.65]	0.52*** [0.36, 0.76]
primary	0.78* [0.65, 0.94]	0.67 [0.43, 1.04]
no education	Ref	Ref

Survey weighted distribution of health outcome: No FP Dis 5yr

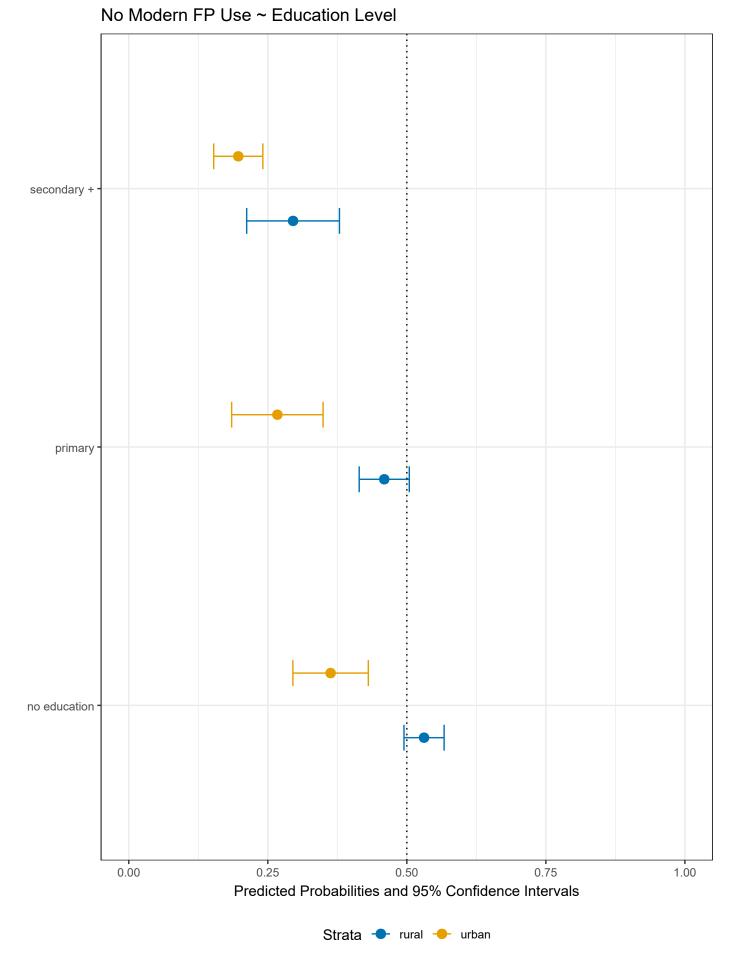

Survey weighted distribution of vulnerability variable: Education Level

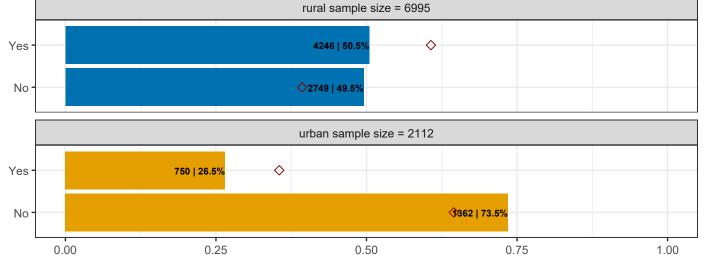

Binary Outcome variable: nofp.dis.5yr and categorical Vulnerability variable: ed.level. Odds ratio displayed.

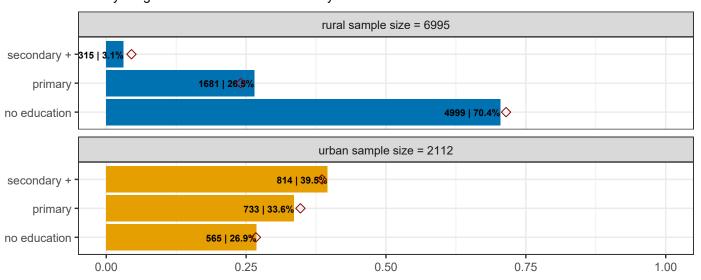

var	rural	urban
secondary +	0.5*** [0.34, 0.75]	0.62* [0.41, 0.93]
primary	0.72*** [0.6, 0.87]	0.74 [0.44, 1.23]
no education	Ref	Ref

Survey weighted distribution of health outcome: No Modern FP Use

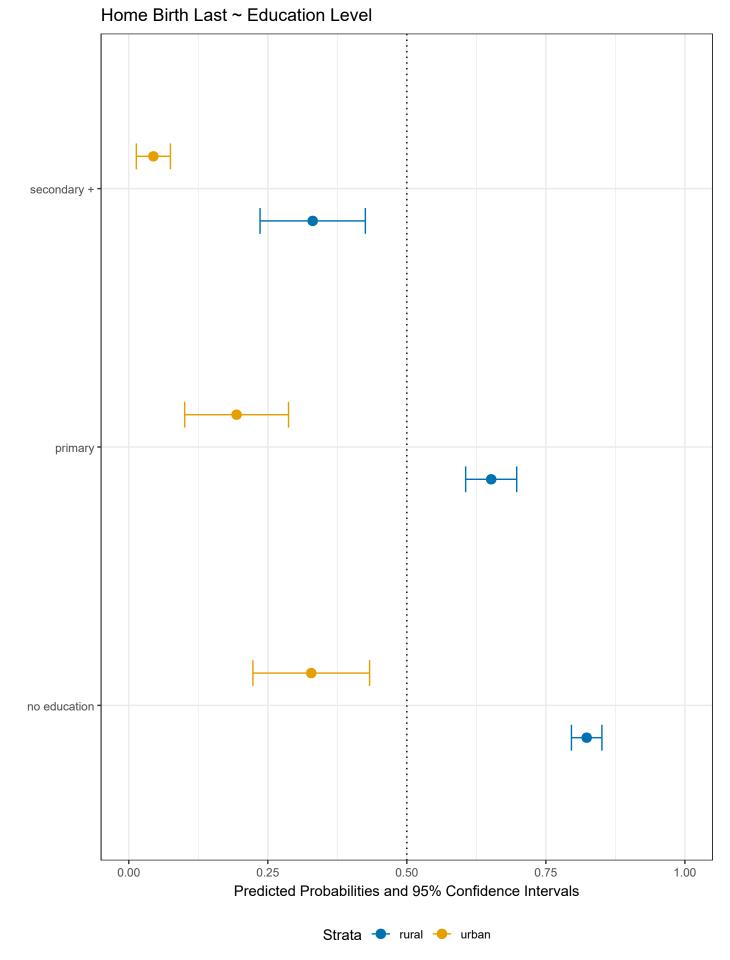

Survey weighted distribution of vulnerability variable: Education Level

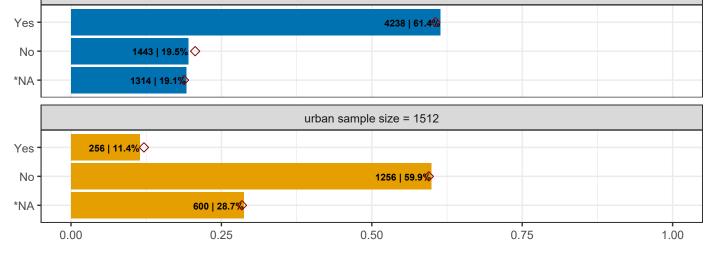

Binary Outcome variable: nofp.mod.ever and categorical Vulnerability variable: ed.level. Odds ratio displayed.

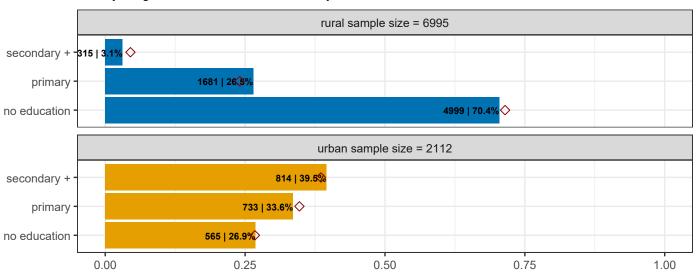

var	rural	urban
secondary +	0.37*** [0.24, 0.57]	0.43*** [0.29, 0.65]
primary	0.75** [0.63, 0.89]	0.64 [0.4, 1.02]
no education	Ref	Ref

Survey weighted distribution of health outcome: Home Birth Last

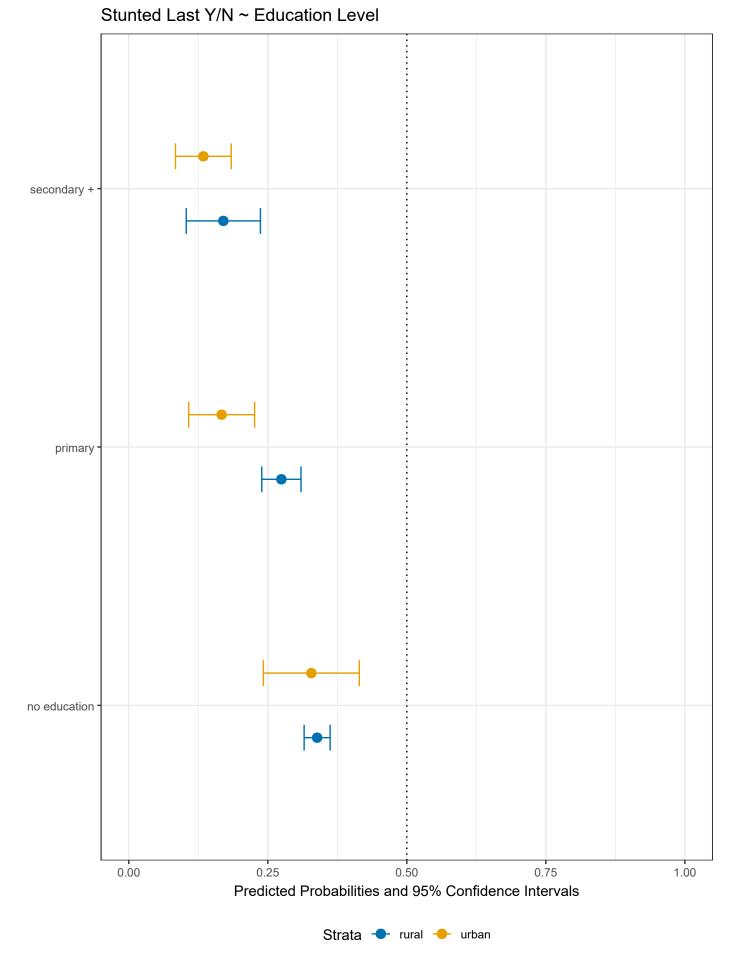

Survey weighted distribution of vulnerability variable: Education Level

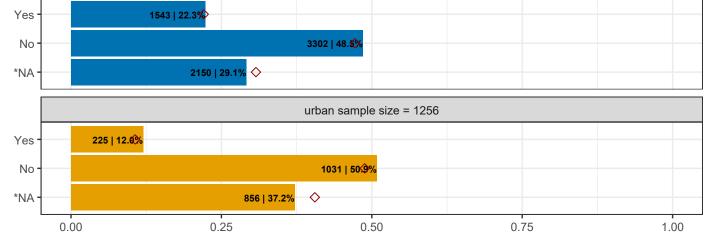

Binary Outcome variable: home.birth.last and categorical Vulnerability variable: ed.level. Odds ratio displayed.

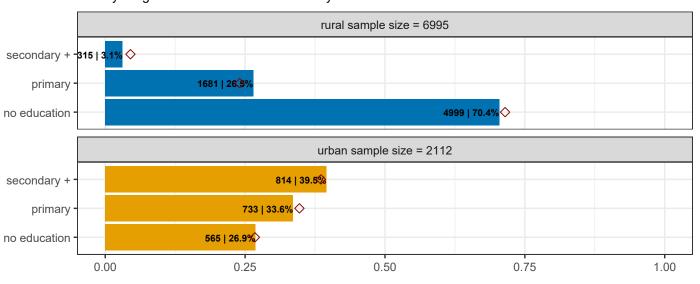

var	rural	urban
secondary +	0.11*** [0.07, 0.16]	0.09*** [0.04, 0.22]
primary	0.4*** [0.33, 0.49]	0.49** [0.29, 0.83]
no education	Ref	Ref

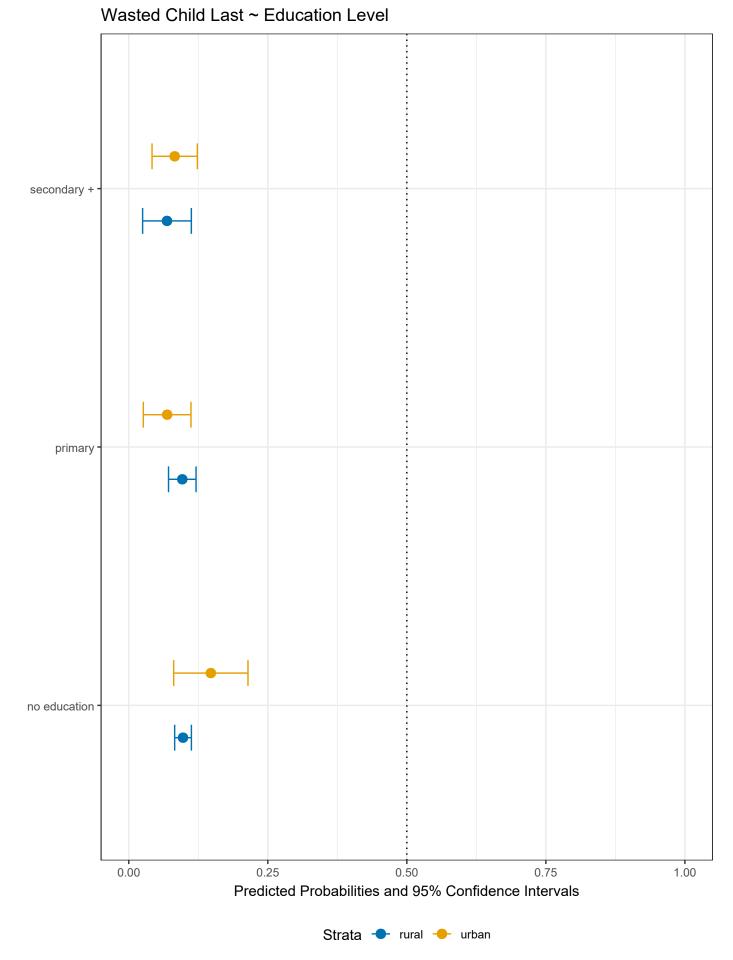

rural sample size = 4845

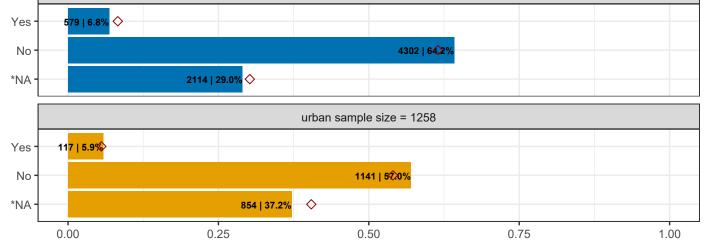

Binary Outcome variable: stunt.cat2.last and categorical Vulnerability variable: ed.level. Odds ratio displayed.

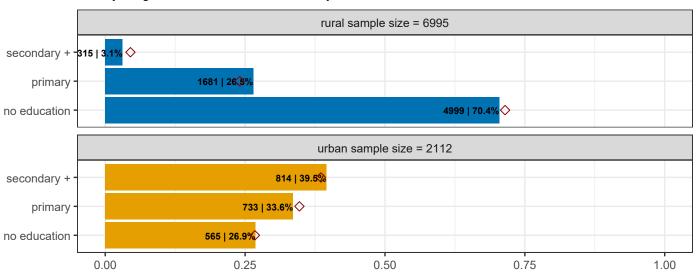

var	rural	urban
secondary +	0.4*** [0.25, 0.65]	0.32*** [0.2, 0.5]
primary	0.74** [0.61, 0.9]	0.41** [0.23, 0.74]
no education	Ref	Ref

Survey weighted distribution of health outcome: Wasted Child Last

rural sample size = 4881

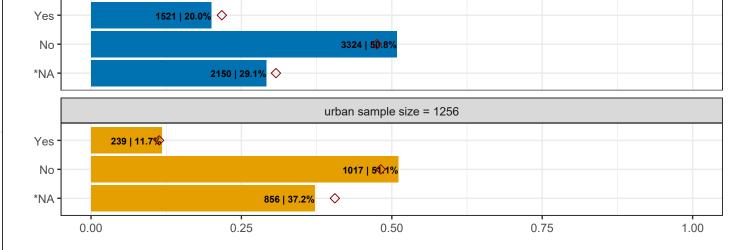

Binary Outcome variable: waste.cat2.last and categorical Vulnerability variable: ed.level. Odds ratio displayed.

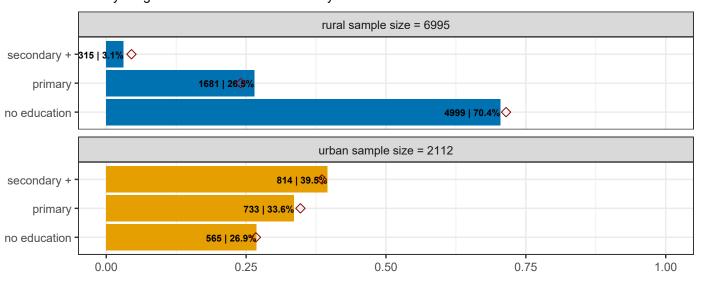

var	rural	urban
secondary +	0.68 [0.34, 1.38]	0.52 [0.26, 1.04]
